

Procurement Jump Start

Quickly assess, score and mitigate supplier risks - for \$18,995

Prevalent™ Procurement Jump Start is the perfect solution for starting a new supplier risk management program or complementing existing cybersecurity assessments conducted with the Prevalent Third-Party Risk Management Platform.

Reduce supplier risk in 30 days or less

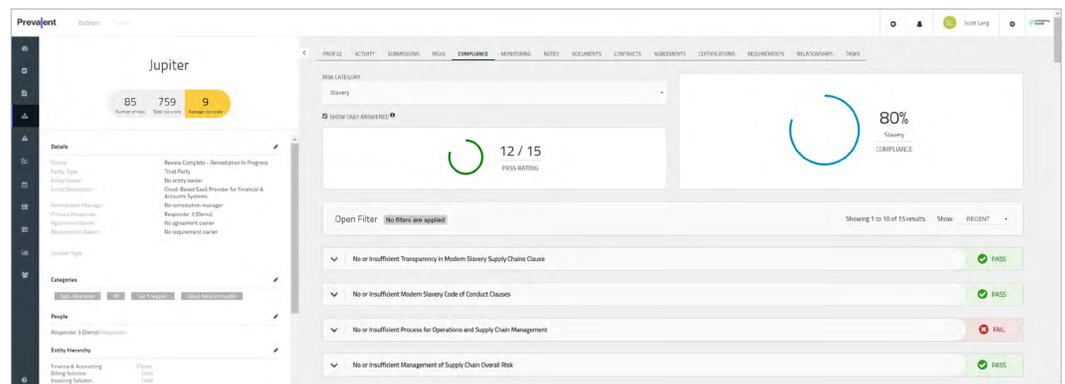

Prevalent Procurement Jump Start automates the assessment, scoring and remediation of supplier risks related to business resilience, environmental and social governance (ESG), anti-bribery and corruption (ABAC), diversity, modern slavery, pandemic preparedness, and SLA performance.

With an included professional services package and comprehensive quick start guide, Procurement Jump Start gives you an automated, programmatic path to gain supplier risk insights in about 30 days.

Key Benefits

- Save time and improve collaboration by managing supplier risk with a single, centralized platform
- Ensure that third parties meet contractual SLA requirements with centralized performance tracking
- Improve risk visibility by aligning procurement assessments with security and compliance requirements
- Demonstrate your organization's awareness of ethics and environmental factors in your supply chain to auditors, board members and the public

Prevalent Procurement Jump Start enables you to quickly assess vendors against key supplier risk considerations in a centralized environment.

Key Features

Comprehensive Supplier Profiles

Enhance supplier profiles with automated updates including legal name, beneficial owners, year founded, annual revenue, industry codes, 4th party products and services, corruption perception index (CPI) scores and more.

Procurement Assessment Library

Assess up to 100 third parties for business resilience, ESG, ABAC, diversity, modern slavery, pandemic preparedness, and performance.

Assessment Scheduling & Management

Monitor real-time questionnaire completion progress, assign risk owners, and set automated chasing reminders to keep assessments on schedule.

Workflow & Task Management

Communicate with business owners and coordinate remediation efforts. Capture and audit conversations, record estimated completion dates, and assign tasks.

Executive Risk Scoring & Reporting Dashboards

Prioritize and remediate risk according to best practices with detailed risk reports.

Remediation Guidance

Accelerate risk reduction with built-in remediation guidance.

Document & Evidence Management

Store and manage policy documents for dialog and attestation with version control, built-in tasks, and an auto-review cadence.

Compliance Reporting

Automatically map information gathered from assessments to regulatory and industry frameworks.

Take the unified approach to third-party risk

Procurement Jump Start is part of the Prevalent Third-Party Risk Management (TPRM) Platform, which unifies vendor management, risk assessment and threat monitoring to deliver a 360-degree view of risk. The platform makes it easy to onboard vendors; assess them against standardized and custom questionnaires; correlate assessments with external threat data;

reveal, prioritize and report on the risk; and facilitate the remediation process. If you need extra support, our expert services team can handle everything from onboarding vendors and conducting assessments, to identifying risks and tracking remediation. You skip the hard work and get the intelligence and reports you need to focus on vendor strategy and risk reduction.

“Prevalent has automated and brought consistency to the initial onboarding of all third parties, which has allowed the team to focus on what matters.”
