

Prevalent™

Third-Party Risk Management Platform

Gain a 360-degree view of vendors to simplify compliance, reduce security risks, and improve efficiency

With cyber attacks originating from third parties on the rise, and privacy concerns driving new regulations, it's critical to ensure that your suppliers can securely manage sensitive systems and data. However, manually collecting, maintaining and analyzing risk status is inefficient, error-prone and costly. Prevalent™ simplifies and speeds compliance and risk reduction with a unified, automated Third-Party Risk Management (TPRM) platform.

Automate, Accelerate, Scale.

The only purpose-built, unified platform for third-party risk management

The Prevalent Third-Party Risk Management platform is a cloud-based solution that combines automated, standardized vendor risk assessment with vendor risk monitoring, assessment workflow, and remediation management across the entire vendor life cycle. The solution is backed by expert professional services and managed services to help you optimize and mature your vendor risk management program.

Assess

Measure compliance with data security and privacy requirements via automated assessment, review, analysis, remediation and reporting.

- Leverage 50+ templates or build custom surveys
- Automate the end-to-end assessment process and eliminate the pain of spreadsheets
- Zero-in on risks and control failures, and gain actionable remediation guidance

Monitor

Gain an outside-in view of risk with continuous cyber and business monitoring, notification of critical issues, and remediation guidance.

- Gain insights into critical cyber incidents and business events from over 567,000 public and private sources.
- Normalize all monitoring data into tangible risks, and link real-time events to assessment findings
- Integrate outside-in scoring with inside-out assessment for a complete view of risk

Share

Access 10,000+ constantly updated vendor intelligence profiles. Quickly check risk scores and augment 1:1 assessment activities.

- **Prevalent Exchange™**: cross-industry vendor data
- **Legal Vendor Network™**: the industry standard used by 50%+ of top U.S. law firms

Prevalent™

Prevalent takes the pain out of third-party risk management (TPRM). Companies use our software and services to eliminate the security and compliance exposures that come from working with vendors, suppliers and other third parties. Our customers benefit from a flexible, hybrid approach to TPRM, where they not only gain solutions tailored to their needs, but also realize a rapid return on investment. Regardless of where they start, we help our customers stop the pain, make informed decisions, and adapt and mature their TPRM programs over time.
